

# QUALITY ASSURANCE

ALTERNATIVE PLASTICS LTD

With the continuing demand for details on our supply and quality procedures please accept the following.

We do not at present operate a recognised quality system. However we aim to fully implement a system to ISO standards before registering. Quality procedures are carried out at every stage to ensure the best quality and service, but these systems are not fully documented or reviewed.

## **The following procedures are in use but are not fully documented-**

- Quality Assurance
- Training for new operatives
- Ongoing Training
- Supplier Assessment
- Handling, Storage, Packing and Delivery
- Checking of incoming materials
- Defective materials clearly marked and or disposed of
- Process & Final inspection prior to despatch
- Delivery monitoring
- Stock trace-ability on request
- Calibration
- Customer complaints
- Alternative Plastics can supply on request: Certificate of Conformity

## **Type of product offered:**

- Cast and Extruded –
- acrylic block
- sheet
- rod
- tubes
- profiles
- fluorescent materials
- Fabrication aids
- glues

## **Type of services offered:**

### *Perfect polishing*

of rods & Blocks and various specially made to order items. 'Perfect Polish' is not like diamond polish with machining lines. It is very flat and highly polished.

*Perfect Drilling* – Very high quality holes with almost a polished finish

*Sandblasting / Machine frosting and spray frosting*
